Portfolio | LinkedIn | GitHub | LeetCode

Objective

Results-driven Computer Science undergraduate with strong expertise in full-stack MERN development and building scalable, AI-integrated web applications using Generative AI, LangChain, and Agentic RAG. Proven ability to design secure RESTful APIs and optimize application workflows. Seeking a Software Development Engineer position to leverage modern architectures and intelligent automation to solve complex real-world problems.

Technical Skills

- **Programming Languages:** C++,JavaScript (ES6+), Python, SQL
- **Frontend:** HTML5, CSS3, React.js, Vite, Bootstrap, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, CRUD Operations, MVC Architecture
- **Databases:** MongoDB
- **AI & Machine Learning:** Artificial Intelligence (AI), Machine Learning (ML), Google Gemini AI, LangChain, Prompt Engineering, Agentic RAG, Generative AI, Large Language Models (LLMs)
- **Authentication & Security:** JWT Authentication, Google OAuth, bcrypt.js
- **Developer Tools:** Git, GitHub, Axios, Postman, npm
- **Core Computer Science:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems (OS), Computer Networks (CN)

Experience

Teaching Assistant – Full Stack Development Dec 2023 – Mar 2024
NxtWave CCBP 4.0 Academy *Remote*

- As a Teaching Assistant at Nxt Wave CCBP 4.0 Academy, I mentored a cohort of over 50+ students in full-stack MERN development, conducting targeted debugging sessions and comprehensive code reviews that successfully accelerated student project completion rates by 85 Percent.

Projects

AI-Powered Resume Builder Live | GitHub
Technologies: React.js, Node.js, Express.js, MongoDB, Google Gemini AI, LangChain

- Architected a full-stack AI-powered Resume Builder using React.js, Node.js, Express.js, MongoDB, and Google Gemini AI, reducing resume creation time by 70% through AI-assisted content generation.
- Engineered AI resume generation, ATS scoring, PDF parsing, Google OAuth, JWT authentication, and an AI interview assistant for personalized resume optimization.
- Designed secure REST APIs with JWT authentication, version management, and responsive UI for seamless resume creation and management.

NxtBuild – AI Web App Builder Live | GitHub
Technologies: React.js, Node.js, Express.js, MongoDB, Google Gemini AI

- Developed an AI-powered web application builder that reduced development time by 80% using AI-generated code.
- Implemented JWT authentication, project management, live preview, and an integrated code editor for real-time application development.
- Built scalable RESTful APIs with secure authentication and MongoDB for project storage and management.

EduReach – AI College Chatbot Live | GitHub

Technologies: React.js, TypeScript, Node.js, Express.js, MongoDB, Google Gemini AI

- Designed an AI-powered college assistance platform providing 24/7 support for admissions, courses, and placement queries.
- Implemented an Agentic RAG chatbot, AI voice counseling, JWT authentication, and responsive interfaces for real-time student assistance.
- Developed secure REST APIs and integrated Google Gemini AI to deliver accurate, context-aware responses.

Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering 2023 – 2027
Indian Institute of Information Technology, Raichur CGPA: 6.0/10.0

Certifications

- Full Stack Development with MERN Specialization – *NxtWave* (Mar 2025)

Key Skills and Strengths

- Strong analytical and problem-solving skills with a solid understanding of Data Structures & Algorithms (DSA).
- Ability to work effectively in collaborative, fast-paced team environments and consistently meet strict deadlines.
- Passionate about learning emerging technologies, highly adaptable, and focused on building scalable, user-centric solutions.
